

Transactions of the State Agricultural Society of Michigan Volume N . 10; With Reports of County Agricultural Societies, for the Year 1849-59

By Michigan State Agricultural Society

Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1860 Excerpt: .and insufficient physical development. The legs are straight, or at least should be Bo in good specimens of the breed. If animals are in-kneed, or crooked in the fore legs, it argues a deficiency in blood and a comparative incapacity for work; and not only for work but for grazing too, for they will be hollow behind the withers, a point for which nothing can compensate, because it takes away so much from the place where good flesh and fat should be thickly laid on, decreasing the weight of the valuable parts of the carcass, and diminishing the capacity of the chest and the power of creating arterial and nutritioious blood. Neither should the legs be too long--a long, stilt-like leg is awkward, clumsy and cumbersome, serving only to increase the apparent height of the animal without adding to the depth of the body, and usually...
